

The 2010 BCSLA Conference & Showcase of Products presents....

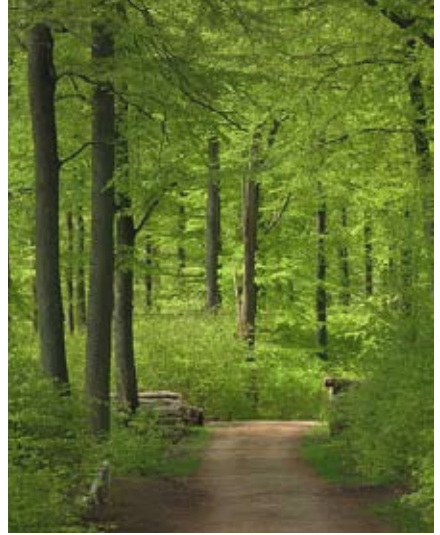

GREEN YOUR BOOTH

In order to support the BCSLA's efforts for sustainability at this year's conference, we are challenging you to "GREEN YOUR BOOTH!". All booths demonstrating sustainability will be rated and the "greenest" booth will be recognized and announced during the conference!

Don't forget to promote your company's greening efforts and the sustainability features of your product - WE WANT TO KNOW!

These are some of the ways you can help green your showcase booth:

- Reduce the weight and bulk of your trade booth materials
- Use recycled, reclaimed, and local materials wherever possible
- Use reusable or recyclable materials if feasible
- Provide an option for attendees to receive exhibition materials electronically
- Collect unused materials for reuse or recycling
- If you give away materials, make them reusable or recyclable whenever possible
- Print hand-outs on recycled, chlorine-free paper and/or with vegetable-based inks

2010 BCSLA Annual Conference,
Showcase of Products & AGM

April 23rd & 24th, 2010

River Rock Resort & Casino
