The title, “Landscape Architect” is regulated in BC in order that members of collateral professions, the construction industry, government, and the general public are assured that an individual has completed an accredited professional degree, followed by documented experience in a range of practice areas, and has met the requirements set out in professional exams. In BC, the Use of Title is governed by the Architects (Landscape) Act:

- (1) A person who is a member in good standing of the society is entitled to use the designation "Landscape Architect".
- (2) A person who is not a member in good standing of the society must not assume or use that designation in any manner or represent that the person is entitled to do so.
