

This workshop brought to you by:

Canadian Association for Rainwater Management

RAINWATER CATCHMENT ACCREDITED PROFESSIONAL WORKSHOP

November 28 and 29, 2016
BCIT, Burnaby, BC

This two-day course provides an in-depth review of rainwater harvesting design and installation and is open to anyone with an interest in rainwater harvesting.

Topics include:

- Outdoor and in-home rainwater use
- Sanitation for potable uses
- Rules and regulations
- Site installation and safety
- System construction and maintenance
- Project planning and business management

The ARCSEA AP designation recognizes professionals in the industry who demonstrate competence in the design and installation of rainwater harvesting systems.
