

We have work to do. Do you want to help?

We're looking for a skilled professional with 3 to 5 years of experience to join our team. An individual of character with a bachelors or masters degree in landscape architecture, or a related field, and five to eight years of experience would be ideal, really. We're searching for someone with a mature outlook as well as strong design, construction and project management skills. Familiarity with our CADD software of choice, Vectorworks, is an asset.

We offer a fun, creative environment with the opportunity to explore many facets of the landscape architecture profession for those with the integrity, maturity and desire. We have an open studio with ideas flowing freely. I mean, it's in the name, right? You can even write on the walls.

Keep in mind we work pretty hard; passion and purpose are mandatory. We are a dog friendly office, and our canines work as hard as we do. Or so they tell us. We also offer a generous benefits package, flexible working hours, an employee bonus structure and a healthy combination of insanity and fun.

Let's see if it's a fit. If you have a well composed portfolio of interesting, creative work with the experience to back it up email your resume and portfolio and we can arrange a date and time to chat further.

Now back to work.
