

Junior Landscape Designer

O2 Planning + Design (O2) believes that great landscape architecture and urban design blends planning, design, ecology, engineering and green infrastructure to create functional, attractive places that showcase sustainability, livability and economic vitality. We create memorable and sustainable design solutions for urban spaces; ranging from plazas, streets and neighbourhoods, to precincts and citywide systems.

O2 is seeking a Junior Landscape Designer to join our Calgary-based team. The successful candidate should be motivated, enthusiastic, creative and professional.

Key responsibilities

- Work with a multidisciplinary team in developing concept designs, presentations, written reports, contract documents, construction documentation drawings and construction detailing
- Prepare high quality renderings in SketchUp, Rhino and other 3D modeling software

Education

- A University Degree in Landscape Architecture or related study area

Skills, qualifications + experience

- 1+ years of relevant experience
- Exceptional graphic communication skills and proven technical expertise in AutoCAD, SketchUp, Adobe (Photoshop, InDesign, Illustrator), Rhino and other 3D modeling software
- Experience in technical detailing, drafting and construction practices an asset
- Strong written and verbal skills in English
- Eligible for Associate level membership in AALA

Additional information

This is a deadline-driven, hands-on, full-time salaried position. O2 offers a competitive salary commensurate with experience, comprehensive employee benefits, and mentorship and support for ongoing professional development.
