Timisoara, Romania

BIOGRAPHY

Birthdate Aug.18.1992

Citizenship Hungarian, Romanian

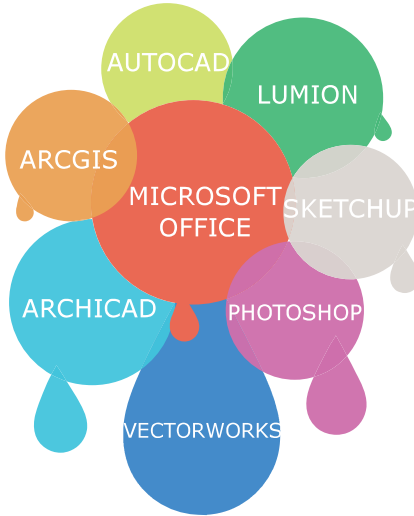

Hello, my name is Daniel Marity.

I'm a Landscape Architecture graduate. I chose this field from passion for working with plants and creating. My broad-mindedness sent me for a semester in exotic Turkey, where I had a chance to explore a new culture and concepts. During my studies and after graduation I have been involved in gardens upkeep and their creation process.

Apart from practical side, I've also been spending my time on small, personal projects. That allowed me to discover and learn valuable programs that I have not encountered at University, like Sketchup, Lumion or Vectorworks.

I'm a holder of EU B category driver's license.

SKILLS

PROFICIENCY

SKETCHUP

MICROSOFT OFFICE

LUMION

ARCHICAD

VECTORWORKS

PHOTOSHOP

ARCGIS

EXPERIENCE

TeoGarden

2014 - currently

I've been a part of the company's team throughout the seasons. The skills I have acquired there through practical work are, but not limited to: maintaining gardens, irrigation systems (planning, mounting and programming watering cycles), shaping and cutting plants, planning and creating lawn surfaces, fertilizing.

Green spaces caretaker

MilleGarden Instal SRL

July - September 2016

During the 6th semester of University, I was hired in this landscaping company. Duties included planting, pruning, upkeep, irrigation and creation of walkpaths. Due to the fact that this happened prior to my bachelor, the length of this opportunity was cut short.

Green spaces caretaker

Internship

August 2014

During the 4-week-long internship I've assisted in ongoing city planning projects in city's landscape department, also I've been engaged in city park upkeep, as a part of a team dealing with rose garden my duties included rose cutting and pruning.

Student internship at the city hall Karlsruhe, Germany
